

USER GUIDE

NEXXTENDER ADVANCE DUAL

Instructions

1. Plug the charging cable into your car.
2. Swipe the badge over the Nexxtender RFID Badge Reader
3. Select a free connector (1 or 2). The light glows blue when a connector is free.
4. Plug the cable into the selected connector.
5. The charging will start. The status LED will glow green.
6. Once charging is complete, swipe again the badge over the RFID Badge Reader and press 'Finish charging'. Or unplug your car first and then the charging will stop automatically.
8. Unplug safely the charging cable.
9. Enjoy driving your Electric Car!

If there is any problem (red LED indicator), contact the supplier of the charging terminal.
